Racquel Giner

914-523-2599 | racquelginer828@gmail.com | racc828 | racquelginer.com

Full stack software engineer with an entrepreneurial spirit and a life-long passion for technology and problem solving.
With experience in Ruby on Rails and JavaScript-based programming and a background in tech startups and PR/marketing
I bring strong frontend and backend development, client relations, and team leadership skills. Former collegiate division 1 scholar
student athlete.

TECHNICAL PROJECTS

Equidestined - Github | Demo
Find the midpoint location between you and a friend and choose a top rated venue nearby
- Developed with Javascript, Jquery and Rails
- Authenticated users with Rails backend using bcrypt
- Utilized Yelp API to populate venues/top rated destinations
- Integrated Google Maps API to pinpoint locations on a dynamic map

GifChat - Github | Demo
Anonymously chat with friends using gifs generated by keywords
- Built with Rails backend to store chat data
- Integrated Gify API to match search with appropriate Gifs
- Implemented live polling to enable user real-time chat update viewing

InstaDrag - Github | Demo
A photograph drag-and-drop web app inspired by Instagram
- Developed with React using Draggable components
- Authenticated users with Rails backend and Javascript frontend, using tools such as bcrypt and jwt

TECHNICAL SKILLS

Ruby, Rails, React, Javascript, Jquery, Adobe Photoshop, Adobe Illustrator, CSS, HTML

EMPLOYMENT HISTORY

Donovan/Green, Manhattan, New York
